

lost YOUR PHONE?

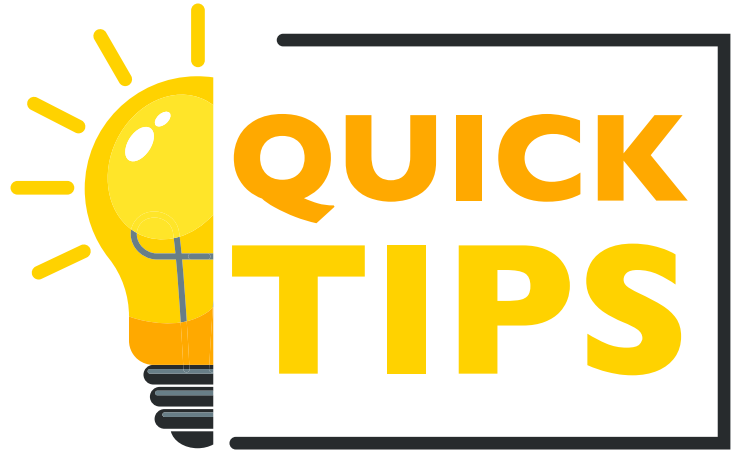

QUICK TIPS

Find your Apple device or AirTag

1. Open **Find My**.
2. Choose Devices or Items.
3. Select your lost device or item to find it on a map. If you belong to a Family Sharing group, you can also find your family members' devices or shared items.
4. Choose Directions to open its location in Maps.
5. If you're close, tap **Play Sound**.
6. If your iPhone has Ultra Wideband, you might be able to tap **Find Nearby** to show the distance and direction to your AirTag or AirPods Pro (2nd generation).
7. If you don't have an Apple device to use **Find My**, find your devices at [iCloud.com/find](https://www.icloud.com/find).

Lost YOUR PHONE?

Find Your Android Devices

1. On another Android phone or tablet, open the Find My Device app .

- If you don't have the app: [Get it on Google Play](#).
- If you don't have your Android device: On a browser, go to [Find My Device](#).

2. Sign in.

- If your own device is lost: Tap Continue as [\[your name\]](#).
- If you're helping a friend: Tap Sign in as [guest](#) and let your friend sign in.

3. From the listed devices, select the device you want to locate. The lost device gets a notification.

- When you manage a Google Account with Family Link, your child's supervised devices automatically appear in the Family devices tab in [Find My Device](#).

4. You may be prompted to provide the lock screen PIN for the Android device you want to locate.

This applies to Android 9 or higher. If the device you want to find doesn't use a PIN, or runs Android 8 or lower, you may be prompted for your Google password.

5. On the map, you get information about the device's location.

- To navigate to a lost device, tap [Get directions](#).
- Your location is estimated from sources like:
 - Wi-Fi: The location of nearby Wi-Fi networks helps us know where you are.
 - If the device is within 10 meters, you can get a shape that fills in as you get closer to your device: Tap [Find nearby](#). This may take a few seconds to update.
 - The radius displayed around your location pin is an indication of our confidence in location accuracy.
 - If your device's current location can't be found, you may still find its last known location, if available.

6. Select what you want to do:

- Play sound: Rings your device at full volume for 5 minutes, even if it's set to silent or vibrate.
- To play a sound, wireless headphones need to be turned on and earbuds need to be outside the case.
